Skin Care Consultation

Introducing SkinScope LED, the next generation of full face diagnostics built on the science of fluorescence technology. This diagnostic tool is used for cosmetic skin assessment and can help us to determine the best course of treatment for your skin. This innovative tool can help us to identify photo aging skin, dehydration, skin laxity, fine lines and even some mild acne. This service is complimentary to existing patients.

New Patients \$60

Latisse® Consultation

A FDA approved prescription treatment used to grow eyelashes, making them longer, thicker, and darker. Significant improvement may be seen within two to four months. Our medical estheticians will provide you with an informative consult on the proper use of Latisse. Fees will be quoted at the time of the consultation.

CHEMICAL PEELS

Chemical Peels are an accelerated form of exfoliation created by acids that produce controlled injury to the skin. There are many types of peels for many different indications such as pigmentary disorders, fine lines and wrinkles and to improve the tone and texture of your skin. A consultation will determine which peel is best suited to your needs. All peel candidates will be screened by one of our physicians prior to being treated.

***Prejuvenation recommended.**

Glycolic, Salicylic, Jessner and Lactic acid peels

- Individual Peels start at **\$85**
- Peel Packages start at **\$345**

See one of our estheticians to see which peel is best for you.

Perfect 10 Chemical Peels

Medical-grade chemical peels featuring layered technology, integrated with All-trans Retinol complex, a proprietary acid blends and antioxidants. They have been specifically developed to promote healthy skin and improve the appearance of:

- Dull and uneven skin tone and texture
- Fine lines and wrinkles
- Dark spots and sun damage
- Discoloration
- Pore Size
- Pigmentary irregularities

\$125

**Prejuvenation* - For optimal results we suggest applying an alpha-hydroxy acid preparation such as glycolic acid cream/lotion/wash in the morning followed by a sunscreen and a retinoid such as Retinol or Tretinoin in the evening supplemented with moisturizers and lightening/brightening if needed.

GENERAL SPA INFORMATION

Punctuality

We ask that you arrive 15 minutes prior to your appointment to complete our registration process. If you arrive late for your appointment, we may need to reschedule your treatment time.

Medical Alert

We will ask you to complete a medical history form that will inquire about areas such as pregnancy, high blood pressure, arthritis, muscle or joint injuries, and medications. Potential chemical peel or laser recipients must be without the use of Retin A or topical medications for at least 48 hours prior to treatment.

Communication

Please communicate any expectations or concerns to your therapist before your treatment so that they can be sure to make your experience beneficial and enjoyable.

Fees and Tips

Pricing and treatments are subject to modifications at our discretion. We will do our best to inform you, in advance, of any fee changes. For exemplary service, please feel free to offer a cash only tip to our staff.

MEDICAL ESTHETIC TREATMENTS

Dermaplaning

Dermaplaning is one of the most effective facial exfoliating treatments available in a Medical Spa setting. It is a process that has been used over the past two decades by itself or in conjunction with Chemical Peels allowing for better penetration of peel solutions. The result is a smoother, softer skin along with better product absorption. It is a quick, non-invasive, painless procedure in which the dead skin cells are scraped away. There is no recovery time and the results are immediate.

\$60 • Add to a Peel or Facial for \$30

Botox Injections

Botox injections are professionally performed by our Nurse Practitioner. Fees will be quoted at the time of the consultation.

Blue/Red Light Acne Therapy

Acne light therapy is a pain-free way to help control blemishes on acne prone skin by killing the acne bacteria and shrinking the oil producing glands. This process will help to decrease the inflammation and lead to the resolution of acne in the treated areas.

8 Sessions \$200

Red Light Therapy

Our Infrared lights trigger a response for your skin to heal from the inside out. The lights easily penetrate the skin to repair damaged nerves and tissues underneath the skin surface leaving an overall improved appearance.

8 Sessions \$200

Lumenis Light Sheer® Hair Reduction

Unparalleled treatment speed and efficacy with optimal patient comfort. 75% faster than the average laser hair reduction session and features the unique HIT™ and Chill Tip™ technologies for pain relief. Fees will be quoted at the time of the consultation.
